## The 13<sup>th</sup> Annual Scientific Meeting InaHRS 2026

Benny Mulyanto  
Setiadi, MD

Dian Andina  
Munawar, MD, PhD

Budi Ario Tejo, MD

### Welcome Message

We are glad to invite you to **the 13th Annual Scientific Meeting Indonesian Heart Rhythm Society (InaHRS) 2026, which will be held on August 13-15, 2026**. This event will be held fully offline which consists of workshop & symposium sessions. As previous meetings, we are looking forward to share the updates from and for physicians and allied professionals in the medical field of arrhythmia & electrophysiology and cardiac implantable electronic devices from basic to clinical appliance. We are hoping through this meeting there will be a good development in the field of arrhythmia.

The 13th Annual Scientific Meeting InaHRS will provide many opportunities for participants to interact with speakers, as well as networking with colleagues and friends from both Indonesia and abroad. Our main goal is to provide a virtuous scientific program that keeps participants updated to the newest diagnosis and management in the field of cardiac rhythm. There will be many programs such as research and case report abstracts submissions, workshops, meet the expert sessions, EP booth camp, ECG championship, Bring Your ECG, unknown EGM tracing, up-to-date symposium topics, and lectures from well-known faculties national and international.

Last but not least, we will be delighted to invite and encourage you who have interest in arrhythmia fields to participate in this meeting. We hope that we can offer you an enjoyable scientific programs with certain entertaining social atmosphere.

## Registration

### Silver Package

General Practitioner /  
Resident

**IDR 1.500.000**

### Symposium

Allied Professional /  
Medical Student

**IDR 1.000.000**

Specialist

**IDR 3.000.000**

### Gold Package

General Practitioner /  
Resident

**IDR 2.250.000**

### Symposium + 1 Workshop Half Day

Allied Professional /  
Medical Student

**IDR 1.250.000**

Specialist

**IDR 4.500.000**

Additional Workshop + IDR 700.000

### Platinum Package

General Practitioner /  
Resident

**IDR 2.500.000**

### Symposium + 1 Workshop Full day / 2 Workshop Half day

Allied Professional /  
Medical Student

**IDR 1.500.000**

Specialist

**IDR 5.000.000**

### Abstract Submission

### 50% Discount From Every Category

Discounted registration link will be sent upon Abstract approval.

### Overseas

### Symposium

**USD 200**

# The 13<sup>th</sup> Annual Scientific Meeting InaHRS 2026

## Workshop Schedule

Thursday, 13 August 2026

### Workshop Schedule Fullday (08.00-17.00)

- Workshop for Allied Professional:  
Pulse Field Ablation (PFA) on Arrhythmia  
Intervention: FOMO or Best Modality

### Workshop Schedule Halfday (08.00-12.00)

- Workshop on The Role Artificial Intelligence–  
Assisted Scientific Writing
- Workshop on Red Flags in Athlete Assessment:  
What Not to Miss
- Workshop on Comprehensive Management of Atrial  
Fibrillation: From Screening to Contemporary  
Ablation Strategies
- Workshop on How to Deal with Syncope in Daily  
Practice. A Comprehensive Review from Diagnosis  
to the Latest Management

### Workshop Schedule Halfday (13.00-17.00)

- Workshop on ECG Interpretation for Acute Care:  
Identifying High-Risk and Red-Flag Patterns
- Workshop on Physiological Pacing Beyond Right  
Ventricles
- Workshop on Inflammatory Cardiomyopathy:  
Arrhythmic Risk, Diagnosis, and Clinical Implications
- Workshop on Pharmacological Management of  
Tachyarrhythmias: Principles and Clinical  
Application

## Workshop for Allied Professional: Pulse Field Ablation (PFA) on Arrhythmia Intervention: FOMO or Best Modality

Course Director : Arie Restio Fauzi, Tkv

| Time        | Topic                                                           | Speaker                          |
|-------------|-----------------------------------------------------------------|----------------------------------|
| 08.00-08.15 | Opening + Pre-test                                              |                                  |
| 08.15-08.45 | Introduction of AF Ablation                                     | Iyan Solihin, S.Kep, Ns          |
| 08.45-09.15 | Modalities on ablation intervention: Preferred the Best Options | Rohmad Widiyanto, S.Kep, Ns      |
| 09.15-09.45 | Discussion                                                      |                                  |
| 09.45-10.00 | Coffee Break                                                    |                                  |
| 10.00-10.30 | Pulse Field Ablation: What You Must Know                        | Deni Agustian Muhidin, S.Kep, Ns |
| 10.30-11.00 | Biophysics of PFA                                               | Vincent So                       |
| 11.00-11.30 | Equipment and Preparation PFA System                            | Ardyles, S.Kep, MARS             |
| 11.30-12.00 | Discussion                                                      |                                  |
| 12.00-13.00 | Lunch                                                           |                                  |
| 13.00-13.30 | Deep Dive Pulsed Field Ablation: PFA System Workflow            | Arie Restio Fauzi, TKV           |
| 13.30-14.00 | Safety and Complications Management                             | Ardyles, S. Kep. MARS            |
| 14.00-14.30 | Discussion                                                      |                                  |
| 14.30-14.45 | Coffee Break                                                    |                                  |
| 14.45-15.15 | PFA in 2D: Budget or Wasted                                     | Deni Agustian Muhidin, S.Kep, Ns |
| 15.15-15.45 | Pulsed Field Ablation: Beyond PVI                               | Arie Restio Fauzi, TKV           |
| 15.45-16.15 | The Outcome and Post Intervention Care                          | Sri Sulastri, S.Kep, Ns          |
| 16.15-16.45 | Discussion                                                      |                                  |
| 16.45-17.00 | Post-Test + Closing                                             |                                  |

## Workshop on ECG Interpretation for Acute Care: Identifying High-Risk and Red-Flag Patterns

Course Director Sebastian Andy Manurung, MD

| Time        | Topic                                                                                               | Speaker                     |
|-------------|-----------------------------------------------------------------------------------------------------|-----------------------------|
| 13.00-13.15 | Opening + Pre-test                                                                                  |                             |
| 13.15-13.45 | When Myocardium Cries for Help: Identifying Ischemic and Infarction Patterns on ECG                 | Ragil Nur Rosyadi, MD       |
| 13.45-14.15 | Wide QRS Tachycardia: A Systematic Approach to Avoid Fatal Misdiagnosis                             | Arsha Pramudya, MD          |
| 14.15-14.30 | Discussion                                                                                          |                             |
| 14.30-14.45 | Coffee Break                                                                                        |                             |
| 14.45-15.15 | Red Flags in Bradycardia and Conduction Disorders: When Slow is Dangerous                           | Ragil Nur Rosyadi, MD       |
| 15.15-15.45 | ECG Patterns You Must Not Miss: Channelopathies, Electrolyte Emergencies, and Drug Toxicity         | Arsha Pramudya, MD          |
| 15.45-16.15 | ECG-Guided Pharmacologic Management of Acute Arrhythmias: Choosing the Right Drug at the Right Time | Sebastian Andy Manurung, MD |
| 16.15-16.45 | Discussion                                                                                          |                             |
| 16.45-17.00 | Post-Test + Closing                                                                                 |                             |

## Workshop on Physiological Pacing Beyond Right Ventricles

Course Director Anggia Chairuddin Lubis, MD

| Time        | Topic                                                                                                       | Speaker                     |
|-------------|-------------------------------------------------------------------------------------------------------------|-----------------------------|
| 13.00-13.15 | Opening + Pre-test                                                                                          |                             |
| 13.15-13.45 | Atrial and ventricular conduction physiology and relevant electro-anatomy                                   | Tommy Daindes, MD, PhD      |
| 13.45-14.15 | Evolution of cardiac pacing system: Epicardial, RV pacing, CRT, HBP, LBB AP, LOT CRT, Bachman Bundle Pacing | Haikal, MD                  |
| 14.15-14.30 | Discussion                                                                                                  |                             |
| 14.30-14.45 | Coffee Break                                                                                                |                             |
| 14.45-15.15 | When to consider CSP in Bradycardia Patients?                                                               | Tommy Daindes, MD, PhD      |
| 15.15-15.45 | Conduction System Pacing Evidences in Heart Failure Patients                                                | Haikal, MD                  |
| 15.45-16.15 | Conduction System Pacing in Indonesia                                                                       | Anggia Chairuddin Lubis, MD |
| 16.15-16.45 | Discussion                                                                                                  |                             |
| 16.45-17.00 | Post-Test + Closing                                                                                         |                             |

## Workshop on Inflammatory Cardiomyopathy: Arrhythmic Risk, Diagnosis, and Clinical Implications

Course Director Irnizarifka, MD

| Time        | Topic                                       | Speaker                                 |
|-------------|---------------------------------------------|-----------------------------------------|
| 13.00-13.15 | Opening + Pre-test                          |                                         |
| 13.15-13.45 | Clinical Syndromes and Red Flags            | Irnizarifka, MD                         |
| 13.45-14.15 | Diagnostic Roadmap                          | Putrika Prastuti Ratna Gharini, MD, PhD |
| 14.15-14.30 | Discussion                                  |                                         |
| 14.30-14.45 | Coffee Break                                |                                         |
| 14.45-15.15 | Arrhythmic Risk Stratification              | Putrika Prastuti Ratna Gharini, MD, PhD |
| 15.15-15.45 | Management Strategy                         | Mohammad Iqbal, MD, PhD                 |
| 15.45-16.15 | Real Case Analysis – Just Another Usual Day | All Speaker                             |
| 16.15-16.45 | Discussion                                  |                                         |
| 16.45-17.00 | Post-Test + Closing                         |                                         |

## Workshop on Pharmacological Management of Tachyarrhythmias: Principles and Clinical Application

Course Director Sumarni, MD, PhD

| Time        | Topic                                                                                    | Speaker              |
|-------------|------------------------------------------------------------------------------------------|----------------------|
| 13.00-13.15 | Opening + Pre-test                                                                       |                      |
| 13.15-13.45 | Initial Approach to Tachyarrhythmias: When and Which Antiarrhythmic to Choose?           | Fera Hidayati, MD    |
| 13.45-14.15 | Differentiating Vaughan Williams Class I-IV: Practical Indications and Contraindications | Alice Inda Supit, MD |
| 14.15-14.30 | Discussion                                                                               |                      |
| 14.30-14.45 | Coffee Break                                                                             |                      |
| 14.45-15.15 | Antiarrhythmics in Atrial Fibrillation: Rate vs Rhythm Control in Emergency Setting      | Fera Hidayati, MD    |
| 15.15-15.45 | Managing Stable Ventricular Tachycardia: Know Your Weapons                               | Alice Inda Supit, MD |
| 15.45-16.15 | Case Stimulation: Polypharmacy and Proarrhythmic Risk- Avoiding Treatment Pitfalls       | Sumarni, MD, PhD     |
| 16.15-16.45 | Discussion                                                                               |                      |
| 16.45-17.00 | Post-Test + Closing                                                                      |                      |
